A empresa Aguas de Ponta Preta inaugurou a maior planta solar fotovoltaica de Cabo Verde, com capacidade de 6 MWp, na ilha do Sal. O projeto aumentará a penetração de energias renováveis e produzirá energia a um preço competitivo.

Solar power can turn electricity cost down and contribute for competitiveness of industrial companies which struggles with costly electricity bills. Our team can offer an optimized design to match consumption with solar power generation and take the most from your system.

A empresa Aguas de Ponta Preta inaugurou a maior planta solar fotovoltaica de Cabo Verde, com capacidade de 6 MWp, na ilha do Sal. O projeto aumentará a penetração de ...

The project development objective (PDO) is to increase the generation of solar renewable energy in Cabo Verde. Has the Project Development Objective been changed since Board Approval of the Project Objective?

Explore the solar photovoltaic (PV) potential across 3 locations in Cabo Verde, from Praia to Cova Figueira. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to determine solar PV potential and identify the optimal panel tilt angles for these locations.

In Cabo Verde, the on-grid solar market is expanding significantly. Government initiatives include new solar parks of 3.4 MW of additional solar capacity planned for Santiago, São Vicente, São Nicolau, and Maio, reflecting Cabo Verde's commitment to enhancing its solar infrastructure and energy reliability across the archipelago. 9
