

# Cabo Verde sun storagetek 6100

What is the Sun StorageTek access volume?

The access volume, which is mapped to LUN 31, is listed only on the Mapping Summary page and is created on the Sun StorageTek 6140, Sun StorageTek 6540, and Sun StorageTek 2500 series arrays for communication between in-band management software and the storage array.

How do I access a Sun StorageTek array?

To access a Sun StorageTek array: Click Sun StorageTek Common Array Manager. In the navigation pane, expand the array you want to work with, and choose Pools. The Storage Pool Summary page is displayed. Click a pool name for detailed information on that pool.

How do I disable a license in Sun StorageTek?

To disable a license in Sun StorageTek: 1. Click Sun StorageTek Common Array Manager. The navigation pane and the Storage System Summary page are displayed. 2. In the navigation pane, expand the array for which you want to display license information. The navigation tree is expanded for that array. 3. Expand Administration and choose Licensing.

What Array Manager software does Sun StorageTek offer?

Software for the J4000, F5100, and B6000 array families is delivered on DVD and consists of the Sun StorageTek Common Array Manager software suite which provides management, monitoring, and service capabilities. The software has both a browser interface and a command-line interface (CLI).

Does Sun StorageTek 2500 support SSD?

For the Sun StorageTek 2500 Series storage arrays, you can use Serial Attached SCSI (SAS) disk drives. The Sun Storage 6580 and 6780 arrays support solid state drive (SSD) as a premium feature for both 73 GB and 300 GB capacities. You can install SSDs in the same tray as FC or SATA drives, up to a maximum of 20 SSDs per array.

How do I submit a review of Sun StorageTek array documentation?

Sun is interested in improving its documentation and welcomes your comments and suggestions. You can submit your comments by clicking the Feedback[+] link at: Sun StorageTek Array Administration Guide, Version 6.6.0, part number 821-0819-10. You specify the functionality you require, and the DVD installs the necessary software.
