Over the years, you"ve likely heard plenty of discussion of the approximately 860 million people who lack basic access to electricity, including 600 million in Sub-Saharan Africa. This energy poverty has been a major barrier to economic development across the region, and continues to cause a significant drag on both social and health outcomes.

2 ???· Camco"s successful first close for its REPP 2 renewable energy fund marks an important step toward enhancing clean energy access across Sub-Saharan Africa. By leveraging blended finance and focusing on decentralized renewable projects, this initiative not only addresses pressing energy needs but also contributes to global climate goals.
