

# Can I store my keys in supermarket lockers

Are key lockers safe?

Key lockers allow property staff and residents to securely store physical keys for trusted guests to retrieve. The three most common alternatives to key lockers are key cabinets, key lock boxes, and key safes. However, none of these options are as reliable or secure as key lockers.

Where can you store a spare key?

You can store a spare key at unexpected places like a tree far from your house, driving a nail into it on the side facing away from your house and hanging the key on the nail. For extra security, you can apply any of the above methods and store your spare key at your neighbor's house-- that is, if you trust your neighbors.

What are the best places to store spare house keys?

Planters filled with flowers provide that eye-catching pop of color and curb appeal. But it also catches the eyes of thieves who will look for a spare key sitting prettily underneath the planter. That being said, there is a creative way to use planters that makes it one of the best places to store spare house keys (see #11 below).

5. Rain Gutter

How do you keep a key safe during a burglary?

With a neighbor: Just leave a key with a neighbor. This is the most simple and safe way to keep your key safe, as long as you trust your neighbor, of course. In a magnetic keytainer on your car: Leave a magnetic keytainer on your car. Most burglaries happen during the daytime hours when you're not home.

What is a key locker?

A key locker is a type of physical key management system containing multiple compartments that each store a single key. Each compartment can be opened separately, while the entire key locker is secured by an access control device. This device is usually a keypad that requires users to enter a code to unlock each compartment.

What are the best alternatives to key lockers?

The three most common alternatives to key lockers are key cabinets, key lock boxes, and key safes. However, none of these options are as reliable or secure as key lockers. The ButterflyMX key locker is the best choice for physical and smart key management because it's convenient, secure, and can be managed remotely from anywhere.
