What is a hood-mounted solar system?

Hood-mounted solar allows me to charge while stationary, without removing gear from my roof or setting up external panels at camp. Solar allows me to stay parked at camp and keep everything powered for days -- if there's sunshine, that is. Cascadia 4×4 gets my vote for "instruction booklet of the year."

How long does a hood-mounted solar system last?

It generally lasts 24 hoursdoing those tasks, but only charges when the car is running. Hood-mounted solar allows me to charge while stationary, without removing gear from my roof or setting up external panels at camp. Solar allows me to stay parked at camp and keep everything powered for days -- if there's sunshine, that is.

I have the Cascadia 4x4 VSS on my 3rd Gen Tacoma. Yes, it is more expensive than the Lensun, but it came with *everything* needed for a full install (the solar panel with the appropriate adhesive tape already on it; a vinyl hood protector; the MPPT charge controller; and hands-down the best set of installation instructions I"ve ever had the pleasure to read).
