

Who is Centrica Energy?

Centrica Energy is our global energy trading and logistics arm. We trade power, gas, LNG, and energy attributes and connect producers, suppliers and offtakers in the wholesale energy markets - and we provide our clients with the best route-to-market services available to the market today with physical and financial settlement approaches.

Does Centrica have a role in the energy transition?

Centrica has a role at every step of the energy transition. When it comes to energy, we make it, store it, move it, sell it and mend it. Find out how we're energising a greener, fairer future. Net Zero isn't next, it's now. Join us on our mission to energise a greener, fairer future. Supporting our customers through...

Is offshore exploration the future of the energy sector in Guinea-Bissau?

Offshore exploration might be the future of the energy sector in Guinea-Bissau, with various projects underway to expand the country's oil and gas sector. Onshore blocks 4 and 5 are licensed to the Equatorial Guinean corporation Ada Business GE Ltd.

When will oil & gas drilling take place in Guinea-Bissau?

According to independent Norwegian oil and gas exploration company PetroNor E&P, a full-cycle Africa-focused independent oil and gas exploration and production business, drilling for Blocks 2 and 4A & 5A offshore Guinea-Bissau under the Sinapa and Esperanza Licences will take place between the end of this 2021 and next year.

Guinea: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

"Centrica is committed to providing secure supplies of energy and delivering the best service at competitive prices," Laidlaw said. Centrica also said that iCON Infrastructure Partners II will buy

Centrica's distributed energy and power business managing director Jorge Pikunic said: "We're very pleased to be in a position to make these important investments in new flexible generation and battery storage, which will play a crucial role in securing power supplies and supporting network stability as more renewables come online.

The project would follow a small but diverse range of energy storage projects Centrica will have under its belt by next year as it transitions towards a focus on smaller, distributed energy sources. As well as the Roosecote battery, expected to be completed in August 2018, Centrica has also completed a 3MW/3MWh battery for Gateshead council. ...

Martin Scargill, managing director of Centrica Energy Storage, noted the projects' benefits for the Humber and their role in supporting the UK's decarbonisation plans. John Johnson, director of development at SSE Thermal, highlighted the potential of hydrogen projects to deliver a low-carbon future for the Humber and accelerate the ...
