What happened to Heimdall power?

Heimdall Power, the technology company that's driving power grid optimization for utility companies around the world, today announced the closing of its \$25 million Series B funding round. The round was co-led by international energy giant Orlen, Nordic cleantech fund NRP Zero and the Steinsvik Family Office.

Who invested in Heimdall power?

With Its "Magic Ball" Sensors. Investors Include Investinor, Eviny, Hafslund, Lyse, Sarsia Seed, and the Steinsvik Family Office. Heimdall Power, the technology company that's driving power grid optimization for utility companies around the world, today announced the closing of its \$25 million Series B funding round.

What is Heimdall power?

Heimdall Power's vision is to optimize power grids globally. Since 2016 our innovative technology has optimized grid utilization with state-of-the-art software and unique hardware technology. We continue to innovate and improve, creating value for customers, shareholders and society. Have any questions? Talk with us directly using LiveChat.

Will Heimdall power increase the capacity of today's GRiD?

Heimdall Power estimates that its solution can help to increase the capacity of today's grid by 30 per cent. The International Energy Agency (IEA) estimates that USD 7.2 trillion will be invested in transmission and distribution grids during the period 2012-2035. Heimdall Power's target market is all power lines above 7 kV.

How does Heimdall power's grid monitoring technology work?

Heimdall Power's grid monitoring technology works by combining the best of both software and sensors to deliver high accuracy at a low cost. Virtual sensors can be set up in minutes, while physical sensors are easily installed on live power lines using a hot stick or our unique autonomous drone system.

Who is the CEO of Heimdall power?

Jørgen Festervoll is the CEO of Heimdall Power. Where is Heimdall Power headquartered? Heimdall Power is headquartered in Oslo, Norway. What is the size of Heimdall Power? Heimdall Power has 45 total employees. What industry is Heimdall Power in? Heimdall Power's primary industry is Other Equipment. Is Heimdall Power a private or public company?

Heimdall Power's vision is to optimize power grids globally. Since 2016 our innovative technology has optimized grid utilization with state-of-the-art software and unique hardware technology.
