What is Yildirim energy doing in T&#252;rkiye?

YILDIRIM Energy has ambitious plans to produce new solar power plants and build wind and geothermal power projects across its markets for the next 5 years, while aiming at reaching 3GW energy production capacity by 2030 and becoming the leading electricity producer with a renewable energy portfolio in T&#252;rkiye.

What is Yeta & yilsolar?

YETA is YILDIRIM Energy's power and gas trade company. YILDIRIM Energy is the energy production and trade branch of YILDIRIM, focusing on renewable energy in hydro, solar and wind power plants. YILSOLAR is the solar power company of YILDIRIM, constructing a solar panel factory in Kocaeli, T&#252;rkiye.

Why is Chad a good place to invest in solar power?

Chad's location in the Sahel, which features brilliant sunshine especially during the dry season, and lack of alternate fuel sources such as coal make solar power an attractive export and investment sector. Chad currently generates electricity by consuming oil.

How does Chad generate electricity?

Chad currently generates electricity by consuming oil. With the declining cost of new solar generation plants, the Government of Chad and development partners have prioritized solar power throughout the country. Machinery and parts for electricity transmission and distribution are also in demand. Opportunities
