

Chile anesco battery storage

Three utility scale battery energy storage projects collocated with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel Renovables are planning 200 MW/800 MWh ...

Copenhagen Infrastructure Partners (CIP) has approved a final investment decision and started construction of the Arena battery energy storage system (BESS) project, with the aim of supplying...

The 112 MW battery with 5-hour storage capacity will be the largest battery storage system in Latin America. Smart and innovative solutions integrating 4 technologies to accelerate Chile's decarbonization and competitiveness.

The net installed storage capacity in operation in Chile reached 404 MW/1,602 MWh in June 2024, according to the latest figures released by the country's Ministry of Energy. That capacity is mainly concentrated in Antofagasta.

Fluence is the world's #1 integrator of utility-scale battery storage supercharging the transition globally. Chile has also been a pioneer in new energy storage applications. The country is home to a first-of-its-kind virtual reservoir, which captures run-of-river hydropower using batteries instead of a dam. Our partnership allows us to ...
