CHANGZHOU, China, November 10, 2015. Jiangsu Seraphim Solar System (hereinafter referred to as Seraphim) announced that it has successfully achieved "Tier 1" status on the latest PV Module Maker Tiering System of the Fourth Quarter 2015, published by world famous Bloomberg New Energy Finance (hereinafter referred to as BNEF) .

In order to better meet the booming demand for rooftop distributed PV, Seraphim has rolled out the new S3 series lightweight dual-glass module, which is the 72-cell module based on 166mm silicon wafer. ... 10-30% more energy generation under different application environments. Verified by mechanical load test according to IEC61215 / 61730-1 & 2.

Inauguración de la planta de Seraphim Anhui Jinzhai Galardonado con el premio de la academía de la marca de oro de China Reconocimiento como Top Performer 2021 por PVEL Acreditado como Laboratorio Calificado por TUV SUD Recibió el Certificado IEC 2021 de TUV SUD Acreditado como Laboratorio TMP por TÜV Rheinland Capacidad global alcanzada 7.5GW

Seraphim is offering four versions of its new SIV N-TOPCon modules, with power outputs between 565 W and 580 W. The power conversion efficiency ranges from 21.87% and 22.45%.The Chinese ...

China seraphim energy

At present, Seraphim products have been widely applied in 30 countries, including United States, Canada, Germany, Italy, Australia, Japan, India, and China. Seraphim is dedicated to providing sustainable and clean energies for customers and making contribution to environmental protection, seeking harmony between human being and natural as well ...

Jiangsu Seraphim Solar System Co., Ltd. ("Seraphim) is once again attending Renewable Energy India 2018, at the India Expo Centre, Greater Noida, on 18-20 September, 2018 India's newly-imposed safeguard duty of 25% on solar imports applies solely to Chinese and Malaysian solar products--but Seraphim's new South Africa factory is exempted.

As a professional solar product manufacturer, Seraphim focuses on the R& D, production, and sales of photovoltaic modules, as well as the overall design and implementation of commercial and residential solar projects.

Jiangsu Seraphim Solar System Co., Ltd. (Seraphim), a world-class solar product manufacturer in China, released its new generation of products, the S4 half-cell series photovoltaic (PV) modules on December 1st . According to Seraphim, the new S4 half-cell series PV modules can achieve a maximum power output of up to 540W, with the maximum module

Seraphim Energy Group Co., Ltd. (Seraphim), one of the world's leading solar product manufacturers, made a sparking appearance with its new PV modules at the SNEC 16th (2023) International Photovoltaic Power Generation and Smart Energy Conference & Exhibition (SNEC PV POWER EXPO), a world's leading show of the photovoltaic industry opened last ...

"The Seraphim S4 series module has a carbon footprint of only 417.11kg eq CO₂/kWp, which is about 15% lower than comparable models from the Chinese and European manufacturers available in France", says Hurry Xu, from Vice President, Smart Energy, TÜV SÜD Greater China. "Seraphim has been dedicated to providing clean and affordable solar ...
