

# Chint photovoltaic inverter indicator light

What information does the inverter display on the LCD screen?

The default indication interface mainly indicates PV voltage, PV current, grid voltage, instant power, daily generated power and time information under normal operation. The fault information of the most recent /current fault will be indicated on the LCD screen when the inverter is in fault mode.

What is a PV string inverter?

To avoid any other unforeseeable risk, contact your dealer immediately, if there is any issue found during operation. 2.1.1 Function This series is a single-phase grid-tied PV string inverter (transformer less) that converts the DC power generated by PV strings into AC power and feeds the power into power grid. The inverter is transformerless.

Can a PV inverter touch other parts?

Do not touch any other parts' surface except the DC switch when the PV inverter is operating; its partial parts will be extremely hot and can cause burns. Power OFF all electrical terminals before the inverter maintenance; strictly comply with the safety precautions in this document when operating the inverter.

How to view & set data of led inverter?

Led contains three color states, blue, green and red respectively. For more details, refer to Table 7.1 LED specification definition. You can view & set data of the inverter through inverter APP. For details about operation, refer to APP User Manual. APP User Manual is available for free from website.

How do I know if my PV inverter is faulty?

The cables of PV strings are connected reversely during the inverter installation. Check whether the cables of PV strings are correctly connected. If they are connected reversely, reconnect the cables. If the alarm occurs occasionally, the inverter can automatically recover to the normal operating status after the fault is rectified.

What is a photovoltaic (PV) inverter user manual?

This user manual is intended for photovoltaic (PV) inverter operating personnel and qualified electrical technicians. This user manual is subject to change (specific please in kind prevail) without prior notice. Indicates an imminently hazardous situation which, if not correctly followed, will result in serious injury or death.

ZHEJIANG CHINT NEW ENERGY DEVELOPMENT CO LTD . Ideal Energy Equipment (Shanghai) Co., Ltd. ... Grid-tied PV Inverter. Utility. Residential. Commercial. System Products. PV Power Container. DC Distribution Cabinet. ...

Do not operate or maintain the inverter until at least 5 minutes after disconnecting all sources from DC and AC sides. The DC conductors of this PV system are normally ungrounded but will ...

# Chint photovoltaic inverter indicator light

Thank you for choosing a Chint Grid-tied PV Inverter (hereinafter referred to as "PV Inverter" or "Inverter") developed by Shanghai Chint Power System Co., Ltd. (hereinafter referred to as ...
