

Christmas Island solar safran electrical and power

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Who is Safran electrical & power?

It is a key player in the equipment electrification & in the electric and hybrid propulsion sector. Mastering the on-board energy system, the company designs and provides modular, innovative and optimized architectures and solutions. Safran Electrical & Power is a developer of both primary generation systems and auxiliary generation systems.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Can solar power a seed cleaning shed on Christmas Island?

As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage.

Did Christmas Island propose a wave generator?

This is all a bit late, and sad, several years back the residents of Christmas Island proposed a wave generator and had and were denied the opportunity and so now at the 11th hour they propose a poor cousin.

Safran Electrical & Power propose des services & l'heure de vol, une solution clé en main pour gérer votre budget plus efficacement sur le long terme en fonction de vos prévisions de vols. Ce type de contrat offre de la flexibilité; tout en améliorant la valeur résiduelle des équipements.

Electrical hybridization of aircraft and propulsion systems is a key pillar of Safran's decarbonization strategy.. That's why Safran Electrical & Power has developed a very high power density motor-generator - GENeUSTM 300 - which is intended to hybridize the propulsion systems of the future. At the end of its first test campaign, this equipment ...

Safran Electrical & Power est l'un des leaders mondiaux des systèmes électriques aéronautiques. La société est un acteur clé dans le domaine de l'électrification des équipements et de la propulsion électrique et hybride. Elle compte plus de 14 000 collaborateurs répartis dans 13 pays.
