

Is a Colombian court ruling a threat to Colombia's energy security?

REUTERS/Nelson Bocanegra/File Photo Purchase Licensing Rights BOGOTA, Sept 16 (Reuters) - A ruling from a Colombian court that ordered the suspension of work at a major offshore gas well is a threat to the country's energy security, industry groups the Colombian Petroleum Association (ACP) and Naturgas said on Monday.

How does the IEA support Colombia's energy transition?

The IEA supports Colombia's agenda for a just energy transition. Experience from the IEA's Global Commission on People-Centred Transitions provides useful learnings for the government of Colombia, helping to boost local economic benefits and the transition to clean energy and new job opportunities.

What does Colombia's energy ruling mean for indigenous communities?

The ruling represents the latest chapter in Colombia's long history of tensions between successive governments and Indigenous groups over energy projects, which the communities often say infringe on their rights or threaten their way of life. The Reuters Power Up newsletter provides everything you need to know about the global energy industry.

What is Ecopetrol doing in Colombia?

Colombia's national oil company, Ecopetrol (Empresa Colombiana de Petroleos), is supporting the shift to low-carbon energy with investment plans for clean energy technology.

Does Colombia have a decarbonised power sector?

Colombia has a largely decarbonised power sector thanks to the significant role of hydropower and bioenergy. Electricity demand is expected to increase as a result of economic growth and the electrification of end-use sectors, an opportunity to decarbonise the transport sector over time.
