High Cycle Life: Must batteries offer 4,500 cycles with 80% DoD, effectively lowering the total cost of ownership. Longer Service Life: Low maintenance requirements and stable chemistry ensure a long service life. Built-in Circuit Protection: The integrated BMS protects against abuse and ensures safe operation. Better Storage: Extremely low self-discharge rate allows for up to 6 ...

A deep-cycle battery is designed to provide sustained power over extended periods, making it ideal for applications requiring regular recharging and discharging. Unlike standard car batteries, which deliver short bursts of energy, deep-cycle batteries can be discharged significantly without damage. Understanding their features and maintenance will ...
