

What is Contel smart energy?

Contel Smart Energy, part of the Contel Technologies Group, leverages a robust combination of industry-leading toolset for supervisory control and data acquisition (SCADA), artificial intelligence and advanced optimization to make Microgrid operations and EV Fleet management smarter, better, and more efficient.

What is Contel smart energy & MMTS?

Contel SMART ENERGY - develops software systems that enable operators of local electricity networks to significantly save on their energy expenses with the help of proper utilization of green energy. MMTS - packaging solutions, marking, palletizing.

How much power does Contel provide?

In addition, Contel provides central electricity cabinets with an output of 3200 amperes based on Rittal's system and the ABB system - which includes a replacement and synchronization system for a generator.

Who is Contel ICS?

Contel ICS - provides engineering and integration services with the largest team of control and software engineers in Israel in a wide range of industries. Contel Electromechanics & control provides planning and execution services of low and high voltage systems and panels, smart MCC panels according to customer requirements.

What does Contel do?

Contel delivers Industrial Automation and digital transformation solutions to simplify industrial challenges, enabling our customers to become more effective in their operations! and employs over 300 professionals. The company provides innovative solutions for industrial plants and infrastructure facilities in Israel.

What is the project description of Contel etgal?

Project: Equipment, electricity and monitoring systems for the new power station "Etgal" in Ashdod. Project description: A variety of technical solutions provided by Contel. These solutions include a process monitoring system of Rockwell Automation, PlantPax series, and controllers with an SIL3 security classification.
