

Cook Islands solar equipment near me

Why do Cook Islands residents need a full-time power system?

And with local residents trained during the installation process, the community is empowered to maintain and operate the systems themselves. Now with full-time power, the future has taken a new shape for Cook Islands' residents - an improved quality of life, and increased economy activity.

How did we help the Cook Islands Government achieve its aim?

We helped the government realise its aim. To support the Cook Islands Government, the New Zealand Government - through the Ministry of Foreign Affairs and Trade, installed mini-grid photo-voltaic power systems in a number of villages on six remote islands. We helped manage this logistically enjoyable project.

Is full-time power the future of Cook Islands?

Now with full-time power, the future has taken a new shape for Cook Islands' residents - an improved quality of life, and increased economy activity. The improved livelihood in the communities that now have the benefit of reliable, 24-hour power supply is immeasurable.
