

Industry-proven Battery Management System (BMS) Remote monitoring; Contact us +47 918 26 618. sales@corvusenergy . Corvus Energy safety innovations. Passive-Single-Cell-level Thermal Runaway (TR) Isolation. True cell-level thermal runaway isolation; TR does not propagate to neighbouring cells; Isolation NOT dependent on active cooling .

Bergen, Norway and Houston, USA-- Corvus Energy is pleased to have supplied the battery energy storage system (ESS) onboard the M/V Green Diamond--the first hybrid diesel-electric inland towboat in the United States, working jointly with vessel owner/operator Kirby Inland Marine, LP, electrical integrator Stewart & Stevenson, and other ...

Bergen, Norway and Bellingham, USA 14 th of March 2024-- Corvus Energy is pleased to supply the battery energy storage system onboard the Magellan Discoverer-- the first hybrid diesel-electric vessel to be constructed in South America.. The vessel is a luxury polar expedition cruise ship to be built at the Chilean shipyard, Astilleros y Servicios Navales S.A. ...

Corvus Energy offers a full portfolio of ESS suitable for almost every vessel type, providing high-power energy storage in the form of modular lithium-ion battery systems. The purpose-built, field-proven battery systems provide sustained power to hybrid and all-electric heavy industrial equipment, including large marine propulsion drives.

The Type Approval confirms that Corvus Energy's containerized battery room has met all of DNV's stringent safety, quality, and performance standards which makes it suitable for a range of marine applications. The Corvus BOB is a standardized, plug-and-play battery room solution available in 10-foot and 20-foot ISO high-cube container sizes ...

Bergen, Norway November 7th 2024 -- Corvus Energy, the leading supplier of zero-emission solutions for the maritime industry is proud to announce that, as of this week, Corvus Energy battery systems have cumulatively helped their customers achieve 10 million Tons* of CO2 emissions reduced since the first installation in 2013. With shipping accounting for nearly 3% ...

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - January 28, 2021 - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first ...

A type-approved, all-in-one battery room solution, the Corvus BOB reduces energy storage system installation time, streamlines integration, and eases classification approvals. The Corvus BOB is a standardized,

plug-and-play battery room solution designed for easy integration with existing ship systems and available in 10-foot and 20-foot ISO ...

More than 50% of the world's hybrid and zero-emission vessels are equipped with Corvus Energy battery energy storage systems. With more than 1200 projects and 9 000 000 system operating hours accrued, hands-on experience gives ...

Bergen, Norway and Seattle, Washington -- Corvus Energy, the leading supplier of battery energy storage systems (BESS) for marine applications, is pleased to announce that the company is expanding its US operations by opening a new factory in The state of Washington. The US-based manufacturing facility, with an annual capacity of 200 MWh of ...

Corvus Energy offers a full portfolio of ESS suitable for almost every vessel type, providing high-power energy storage in the form of modular lithium-ion battery systems. The purpose-built, field-proven battery systems ...

The Corvus Orca ESS is the most installed marine battery energy storage system worldwide, operating in over 700 vessels and maritime applications around the world. ... Corvus Energy invests in innovation, quality, and continuous improvement. When the Corvus Orca ESS launched in 2016, it set new industry standards for marine energy storage ...

Geir Bjørkeli, CEO of Corvus Energy, addresses the 450 guests at the opening ceremonies of the new Corvus battery factory in Bergen, Norway. Norwegian Minister of Local Government and Modernization, Monica Møland, presided over the official opening ceremony and spoke about the significant role the Corvus battery factory plays in Norway's ...

The Type Approval confirms that Corvus Energy's containerized battery room has met all of DNV's stringent safety, quality, and performance standards which makes it suitable for a range of marine applications. The ...

The Corvus Blue Whale marine energy storage system is designed specifically for large vessels, like Cruise Ships and Ro-Pax, and vessels that require a large amount of energy. The Corvus Blue Whale marine battery energy storage system is designed for use in Cruise, Ro-Pax, Ro-Ro, Mega Yachts, and other vessels where the operational profile ...

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first zero-emissions electric ...
