

What is Belleli Energy CPE?

Belleli Energy CPE defines solutions for critical process equipment for the hydrocarbon, industrial and power industries. Thank to the in-house design, engineering and manufacturing the company is capable to ensure the integrity of the materials, processes and product from raw material through fabrication to completed product.

Who is Belleli Energy?

In over 70 years of activity in the world market, Belleli has created and consolidated its reputation as a supplier of high quality products and services. In the 1970s it introduced the first Quality System for nuclear manufacturing. Belleli Energy CPE is now an ASME Nuclear Stamp Certificate holder.

Why should you choose Belleli Energy?

Belleli Energy is always committed to developing a culture of safety to ensure workers' health. Quality is the essence of our work. The company policy guarantees the continuous improvement of quality standards to meet the needs of high technology in the design and manufacture of critical process equipment.

Why is Belleli Energy a value provider?

This significant contribution, as a value provider of the AMW Consortium in the frame of a contract with the European Agency Fusion For Energy, has endowed #BelleliEnergy with a remarkable legacy of quality, engineering, and manufacturing skills. These nuclear components are among the most complex mechanical equipment ever fabricated.

Why did Belleli build a crane system?

Due to the increasingly high dimensions of the products and worldwide demand, Belleli's engineers designed and built a crane system to load river barges, becoming able to ship heavier equipment from Mincio/Po river to Porto Marghera international seaport.

How did Belleli develop a high pressure vessel?

In addition to the production of reactors, Belleli took part in an European research project on the addition of Vanadium to Chromium Steel in 1992, pioneering a tendency that is now established in the High Pressure Vessel manufacturing.

Belleli Energy CPE is now the holder of the ASME Nuclear Stamp certificate. The quality management system of Belleli Energy CPE is also in full compliance with the ISO 9001, ASME Code Section VIII Div.1 & VIII Div.2 and the European Directive for Pressure Equipment 2014/68/EU, as well as the Chinese and the TR CU regulations for the EAC marking.

Belleli Energy CPE is equipped with a private barge of 120 m x 1200 m, served by a barge with a capacity of 1.500 tonnes. Belleli has at its disposal: a barge for the loading

lunga 78 m; una banchina per traghetti lunga 78 m; 2 gru di sollevamento, entrambe con capacit  di carico fino a 1.500 tonnellate.
