

Cuba power pack

What type of power outlet does Cuba use?

Cuba uses both Type A/B and Type C power outlets. Some hotels will use one type and others another, although plenty use both, sometimes even in the same room! As a result, you'll have to pack the proper adapter to recharge your devices while on the road.

Does Cuba have a power adapter?

One of the common exceptions is the portable hairdryer, which tends to be a fixed 110V. Check the label if in doubt. However, since most of Cuba's outlets are 110V, even your hairdryer should be compatible. In addition to your US to Cuba power adapter, these items will help you pack with intention and expand the possibilities of your getaway.

What is the electricity and power supply like in Cuba?

View on Amazon.com ? What's the electricity and power supply like in Cuba? Although Cuba officially runs on 110V, many of the more modern hotels have 110/220V (dual voltage) outlets to cater to the lucrative European market.
