

Curaçao energy management startup

Will Aqualectra revolutionize energy management in Curaçao by 2030?

As a part of Aqualectra's ongoing efforts to continue improving its services and better serve the people of Curaçao, this agreement aims to fully revolutionize energy management in Curaçao by 2030, ensuring reliable, affordable, and sustainable energy for the island.

How will a battery energy storage system benefit Curaçao?

The implementation of a Battery Energy Storage System will allow Curaçao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

Will Aqualectra participate in the CARILEC Conference 2024?

To further highlight the impact of their cooperation, the Aqualectra team has been invited by Wärtilä to take part in panel discussions at the Chief Executive Officers & Leadership CARILEC Conference 2024, held from May 19th to 22nd in Puerto Rico.
