Why do you need a solar rent-to-own plan?

Transition to solar without significant initial costs. Our solar rent-to-own plans make it accessible for all. After the contract ends, the solar power system is yours, ensuring endless free energy. Contribute to a sustainable South Africa and reduce the national carbon footprint.

What is a rent-to-own Solar System?

In this landscape of innovation, the Rent-To-Own (RTO) solar programme has emerged as a beacon of opportunity, empowering homeowners and small businesses to embrace solar panel systems without the weight of initial expenditures.

How does the RTO solar programme work?

Structured Monthly Payments: The bedrock of the RTO solar programme is its structured monthly payment framework. Rather than a demanding upfront sum, participants embrace a balanced approach by paying a uniform monthly fee.

The electricity user (customer) rents a solar power system or a back-up battery solution from Solec Rentals (Pty) Ltd (the system owner). The customer pays a monthly rental fee and uses all the electricity produced by the solar system and/or enjoys the benefit of no unexpected power cuts. sales@solecsa
