

Curaçao sama energy company

Will Aqualectra revolutionize energy management in Curaçao by 2030?

As a part of Aqualectra's ongoing efforts to continue improving its services and better serve the people of Curaçao, this agreement aims to fully revolutionize energy management in Curaçao by 2030, ensuring reliable, affordable, and sustainable energy for the island.

How will a battery energy storage system benefit Curaçao?

The implementation of a Battery Energy Storage System will allow Curaçao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

What projects is Aqualectra working on in Curacao?

Aqualectra, with six hundred fifteen employees working in nine departments, is a major player in Curacao. Several of the company's long lasting projects involving green energy, smart meters, and electric cars are outlining, shaping, and potentially developing Curacao's economy and future.

How can Curacao's future be developed?

One way to develop Curacao's future and decrease the use of polluting fossil fuels is to introduce, facilitate, and stimulate the usage of electric cars. Aqualectra is planning to increase its current vehicle fleet from two to six electric cars.
