

La compañía serbia CWP Global, a través de su filial Southern Cone Energy, ha anunciado una significativa inversión en un ambicioso proyecto de hidrógeno verde en Argentina, específicamente en la provincia de Tierra del Fuego. Este acuerdo con el Gobierno local marca un paso importante en la transición hacia energías renovables en el país.

About CWP Europe. Combining a global perspective with extensive local experience, CWP Europe is developing 6+ GW of utility-scale wind, solar and battery storage projects in Southeast Europe. Our mission is to deliver the technologies, skills and services that will bridge the gap between SEE and the rest of Europe.

We are proud that an experienced developer like CWP Global will join our project and take the lead as a new shareholder in bringing it to a Final Investment Decision. As Angola offers a special framework and very good options for production of green hydrogen, we believe we have one of the most attractive projects that has a high likelihood of ...

At CWP Global, we are aligned with these market trends, and we are committed to integrating green hydrogen into various sectors, from maritime shipping to steel and cement production. As we look towards a future where sustainability is not just a goal but a necessity, green hydrogen stands out as a game-changer. At CWP Global, we are committed ...

À l'occasion du Sommet mondial Power-to-X, organisé les 19 et 20 septembre 2023 à Marrakech, l'équipe de direction de CWP Global a réitéré l'ambition de l'entreprise américaine de contribuer à faire du Maroc un chef de file dans l'émergence de la nouvelle industrie de l'hydrogène vert en Afrique du Nord et à l'échelle mondiale.

CWP Global is an integrated renewable energy developer, with expertise across the full project cycle. CWP develops, manages and owns an international portfolio of renewable energy projects, and is currently in various stages of development of 8 large -scale green hydrogen hubs across 3 continents. CWP recently announced a strategic investment by
