Where can I buy photovoltaic equipment?

Photovoltaic wholesaler Sunprofi offers only the highest quality devices and equipment in all categories of this industry. You can purchase from us, among others: photovoltaic panels, heat pumps, inverters, power optimizers, energy storage systems and mounting structures.

What is solar wholesale selling?

Most importantly, wholesale selling helps to bring the cost of solar down, which accelerates the advancement of solar worldwide. This guide will be frequently updated with additional information about wholesale selling for solar suppliers, distributors and brokers.

Do solar wholesalers offer Value-Added Services?

Many solar wholesalers and distributors have evolved their business models to offer value-added services. Some provide storage space to contractors and will drop ship equipment to project worksites. Some offer lines of credit. And some buy back excess and used equipment as long as the material has resale value.

What is a solar exchange?

One of the solar industry's leading global exchanges is EnergyBin, where PV professionals come together to buy and sell new, used, refurbished, and legacy solar equipment. Members collaborate to advance solar, share market intelligence and decrease costs. Some exchanges are open to anyone. They tend to take a hands-off approach to liability.
