

Many devices used both at home and work, such as computers, watches, cameras, and cell phones, use lithium batteries. Additionally, batteries are used in electric vehicles and golf carts. If lithium batteries aren't stored properly, they can be a fire hazard. Therefore, you must ensure that your lithium ion battery storage is right.

Lithium-ion battery is desirable due to its high density, deep depth of discharge (DoD), and extended lifespan. All of the top solar batteries on our list incorporate some variation of lithium-ion technology. It's worth mentioning that lithium iron phosphate batteries are a subtype of lithium-ion technology. Lead-Acid Batteries
