and has just 22 spacious one-bedroom cottages and two beachfront villas.

DNV's global report Transforming through uncertainty draws on our survey of almost 1,300 senior energy professionals and in-depth interviews with industry leaders, from across power, renewables, oil and gas, and energy-consuming industries.

Energy Industry Insights 2023: Trilemma and Transition. Download Trilemma and Transition, to explore the view from across the energy industry on confidence, sentiment, and priorities for 2023 - drawing on a survey of more than 1,300 senior energy professionals.

Drawing on insights from a survey of over 1,200 senior energy professionals and in-depth interviews with industry leaders worldwide, this special report -- part of our Energy Industry Insights series -- examines how evolving energy and emission policies will shape the global economy and the future of the energy industry.

The anticipated impact of this comprehensive policy revamp is significant. By creating a robust policy framework that responds to the evolving energy needs of the people of St. Vincent and the Grenadines, the country will increase its energy efficiency, reduce its dependence on imported fuels, and promote the adoption of renewable energy.

I would like to receive informational emails with related content in the future from DNV, for example but not limited to invitations to webinars, seminars, newsletters, or access to research that DNV thinks is relevant to me. I can unsubscribe or change my email preferences at any time using the links in the footer of the emails I receive from DNV.
