

Do B-class photovoltaic panels have a warranty

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or materials warranty.

Do you need a solar panel warranty?

Going solar is a big investment, and you'll want to make sure your solar panels are protected and will last for years to come. That's where a solar panel warranty comes into play. Your warranty can cover the cost of things like replacement panels, repairs and labor. It can also cover the performance of the solar panel system.

How long does a solar panel warranty last?

Some solar warranties might last 20 years and only cover the product and labor costs, while other warranties might last 25 years and cover the product, system performance and labor costs. Don't be afraid to shop around to see who's offering the best deal. What's covered under a solar panel warranty?

What is a solar panel performance warranty?

A solar panel performance warranty guarantees that a home solar panel installation will meet or exceed a baseline of electric power output over the panels' lifetime and warranty period.

Why are solar panel warranties important?

Solar panel warranties are important to make sure you get the expected electricity savings over time. For example, if your solar energy system is expected to save at least \$1,200 per year, a 25-year warranty means you get \$30,000 in guaranteed savings. Solar panel warranties also help you qualify for favorable loan conditions.

Are solar panel warranties transferable in a home sale?

In most cases, solar panel warranties are transferable to the new owner in a home sale. However, some warranties are restricted to the original owner, so it is crucial to clarify this point with the manufacturer and installer offering the warranty.
