

Do I need to pay tax to install photovoltaic panels

Do I have to pay tax on solar panels?

Normally, you won't get charged VAT or income tax on this payment if you produce electricity primarily for your own home. However, for businesses and commercial properties, the money made from solar panels, including feed-in tariffs, might be subject to taxes.

Do you pay VAT on solar panels?

If you buy solar panels from one provider and have them installed by someone else, you'll be hit with a standard 20% VAT rate when buying them. Plus, any maintenance or repairs after installation will be at the standard VAT rate.

Are solar panels tax deductible in the UK?

According to the UK government's list of Energy Saving Measures (ESMs), most solar photovoltaic (PV) panels installed on residential properties in Scotland, England and Wales (plus Northern Ireland, as of 1 May 2023) are exempt from VAT, meaning there's no VAT included in the purchase and installation costs.

What is the VAT rate on solar panels?

The 0% VAT rate on solar panels will last until the 1st of April 2027. After that, VAT on solar panels will increase to 5% - meaning it won't go back to the 20% rate. You won't need to meet the pre-April 2022 criteria to qualify for the reduced rate either. The 5% VAT rate will apply to solar panels being installed on any residential property.

Can VAT be reduced on solar panels?

For example, Austria just recently reduced VAT to 0% on residential solar panel installations in January 2024. According to the latest data from Microgeneration Certification Scheme (MCS), over 1.4 million solar panel systems have been installed across the UK, up from 1.2 million in 2022.
