It's because the PLB40 has a built-in charge controller that you can plug a solar panel directly into the battery. Just make sure the panel outputs 8-25V with a maximum charging current of 10A. Dometic says the PLB40 can charge from 0- to 100-percent in approximately six hours and the battery's lifecycle is said to be up to 2,000 charges.

All cables are 4.0mm 2 (or roughly 12AWG), which are sized correctly for the rated output current. Let's take a closer look at the solar controller. Dometic Solar Controller. The Dometic Portable Solar Panel Kit is rated at 6.63A and 18.1V at maximum power (at 25°C ambient temperature), giving a total of 120W of power.

Maximize your portability with our foldable solar panels. Easy to pack and transport, these panels are perfect for camping, hiking, and any adventure where space and weight are a concern. Quickly set up your foldable solar panels to capture sunlight and keep your devices charged, no matter how remote your location.
