Where is AES Energy Storage located in the Dominican Republic?

AES Dominicana, a unit of AES Corporation (NYSE:AES), announced on Tuesday that it had put into operation 20 MW of new energy storage battery systems in the Dominican Republic. Located on sites in the Santo Domingo region, each of the two systems supplied by AES Energy Storage has a capacity of 10 MW.

What is Energas & AES doing in the Dominican Republic?

Energas and AES shared a commitment to transitioning the Dominican Republic away from conventional generation and toward a greener energy mix through natural gas.

What's going on with AES Dominicana?

The transaction is the largest financing for renewable energy projects for a Caribbean economy, IDB Invest said. AES Dominicana, a unit of US energy group AES Corp (NYSE:AES), will use part of the proceeds to design, build and operate three new solar projects with a combined capacity of 240 MWac -- Mirasol, Peravia I and Peravia II.

How did AES contribute to the development of the Dominican Republic?

2000: AES maintained its commitment to the long-term development of the Dominican Republic by constructing AES Andres, comprised of a 319 MW combined cycle plant, a liquefied natural gas (LNG) terminal and a gas pipeline connecting to the DPP power station.

How has AES changed the energy sector?

From its founding until today, AES has led lasting positive change in the energy sector based on its stakeholders' most critical needs. 1996: AES made its first investment in the Dominican Republic with the purchase of Dominican Power Partners (DPP) from NGC Corp. DPP is the owner of Los Mina V and Los Mina VI, two 118 MW open cycle gas turbines.

Why did AES Andres become the most efficient power station in Latin America?

2003: AES Andres began its operations and became the most efficient power station in Latin America, representing a move towards sustainable development in the Dominican Republic. The new investment improved the strategic position of the country, which formerly depended on petroleum derivatives to supply 90% of its electricity needs.
