

How has the Dominican Republic power sector changed?

The Dominican Republic power sector is developing rapidly. The reforms that started in the late 1990s have shaped its current structure. As a result of these reforms, activities across the power supply chain have been unbundled, and private sector participation has increased.

What was the Dominican power sector like before the 1990s?

Prior to the 1990s reform, the Dominican power sector was in the hands of the state-owned, vertically-integrated Corporación Dominicana de Electricidad (CDE). The operation of the company was characterized by large energy losses, poor bill collection and deficient operation and maintenance.

What type of energy does the Dominican Republic use?

This page is part of Global Energy Monitor's Latin America Energy Portal. Fossil fuels- including oil, natural gas, and coal - supply most of the Dominican Republic's energy, supplemented by smaller amounts of renewables, including hydro, wind, solar and biofuels.

What is the Dominican Republic's Energy Roadmap?

This roadmap was developed in close co-operation with the National Energy Commission (Comisión Nacional de Energía or CNE). It quantifies what can realistically be achieved by 2030 in the Dominican Republic's total energy system in terms of renewable energy technology potential, cost and savings.

How is electricity distributed in the Dominican Republic?

Electricity is then publicly distributed through either Edenorte, Edesur, or Edeeste. OC (Organismo Coordinador) is responsible for the coordination of the dispatch of electricity across the Dominican Republic via the national interconnected electrical system.

How has the power supply system changed in Dominican?

As a result of these reforms, activities across the power supply chain have been unbundled, and private sector participation has increased. The national interconnected system (Sistema Eléctrico Nacional Interconectado de la República Dominicana or SENI) supplies 87% of all the electricity consumed in the country.

Overview Spanish colony (1492-1795) Pre-European history French occupation (1795-1809) Spanish colony (1809-1821) Haitian occupation (1822-1844) Independence: First Republic (1844-1861) Spanish colony (1861-1865) Christopher Columbus reached the island of Hispaniola on his first voyage, in December 1492. Guacanagarí, the chief who hosted Columbus and his men, treated them kindly and provided them with everything they desired. However, the Taíno egalitarian social system clashed with the
