

easyLi designs and manufactures advanced lithium-ion battery solutions. It creates and manufactures advanced battery systems and turnkey energy storage solutions for electric vehicles, onboard and off-grid energy systems, smart buildings, and infrastructures.

Thanks to the 20-year+ experience of its founders, easyLi has quickly become a recognized specialist of innovative energy storage solutions for e-mobility and smart building organizations.

We have a very large library of battery references resulting from the work of our Research & Development laboratory. Our years of experience allow us to advise and support you so that you can move more quickly from design to prototyping, saving precious time for experimenting with prototypes in your applications .

? easyLi Advanced Battery Systems bet on Lithium-Ion technology, and became French expert in designing and manufacturing custom batteries: we help you define...
