

What is Ecostar Holding?

Ecostar Holding is a leading international EPC contractor with vast experience in the design, construction and commissioning of power generating plants in over 55 countries and 4 continents. Ecostar Holding specializes in the development of power projects based on natural gas, hydropower, HFO, Diesel, biomass and biofuels ranging from 1MW to 1000MW.

What does Ecostar Energy specialize in?

Ecostar Energy is a part of the Ecostar Holding and specializes in the development of power projects based on natural gas, hydropower, HFO, Diesel, biomass, and biofuels ranging from 1MW to 1000MW.

Does Hungary have a commitment to renewables?

Attila Steiner, Hungary's State Secretary for Energy and Climate Policy, said: "Hungary has a strong commitment to renewables. As the next step, the government's priority is to upgrade the national grid to be capable of integrating the rapidly growing electric capacity generated by weather-dependent energy sources.

What is Ecostar Energy's financial position like?

Ecostar Energy, as part of the Ecostar Holding, enjoys a strong financial position. In the last few years, the company has been engaged in projects as an independent power producer (IPP), Build-Own-Transfer (BOT), or Build-Own-Operate (BOO).

What is Hungary's Energy Strategy?

Under Hungary's energy strategy, the government's stated policy objective is to reduce import dependency. Hungary's dependency on energy imports has increased over the last decade as demand for fossil fuels has increased. Despite greater diversification of oil supply, the country remains heavily dependent on Russian oil and gas.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system - a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

The US Trade and Development Agency (USTDA) has signed a grant agreement with Ecostar Energy Côte d'Ivoire for technical assistance to support the development of an estimated 25-megawatt cotton stalk biomass power plant in the Boundiali region of Côte d'Ivoire.
