

Ecuador solar power station dw 1800

What's going on with Ecuador's first large-scale solar power project?

QUITO, March 3 (Reuters) - Ecuador's government on Friday signed a deal with Spanish company Solarpack for the construction and operation of the country's first large-scale solar power project, with an estimated investment of nearly \$145 million.

Will El Aromo be Ecuador's first solar power plant?

Due to its scale and location El Aromo remains a bellwether project for Ecuador's solar future. While Solarpack already has 15 solar generation projects in Spain, Chile, Peru, and India, El Aromo will be the company's first power plant in Ecuador.

What is Ecuador's energy supply?

Ecuador's power space has long been dominated by hydropower and oil-based generation. According to IRENA's latest data (for 2017), almost 80% of the country's energy supply was from oil and about 16% from renewables, with almost all of this from hydro supplemented with a small contribution from bioenergy.

Will solar power grow in Ecuador?

"As of 2019, with an installed capacity of 26.7 MW solar PV formed a negligible portion of Ecuador's capacity mix," comments Somik Das, Senior Power Analyst at GlobalData. "Going ahead, GlobalData notes that growth in solar capacity is anticipated to see an expansion, seeing cumulative installed capacity of more than 4GW by 2030."

Does Ecuador have a solar energy policy?

He notes that Ecuador currently has only one energy policy related to photovoltaic solar energy: a net-metering policy introduced in October 2018 to promote distributed generation and to allow residential, commercial, and industrial operators to consume power generated using their own solar equipment.

What is Ecuador's largest hydropower plant?

CCS is the country's largest hydropower plant by generation capacity. Ecuador's state-owned electricity company CELEC imports electricity from neighboring Colombia, costing \$400 million in 2022. It is also increasing diesel purchases from Petroecuador to power its thermal electric power plants.
