

Egypt emergency power home

How will Egypt tackle a summer power shortage?

(Reuters) Egypt's government will implement emergency moves, including rationing electricity and increasing fuel oil imports, as it bids to tackle a summer power shortage, the country's prime minister said on Thursday.

How does Egypt deal with the energy crisis?

To alleviate the crisis, Egypt has allocated \$1.2bn to fund initial energy imports, including 21 LNG cargoes that have begun to arrive, mainly from the US. The blackouts, which began in April, ended at the beginning of August but could resume in mid-September, according to the government.

How will Egypt manage the power cuts?

Egypt will import between \$250 million and \$300 million worth of mazut fuel oil to manage the power cuts, and will announce a plan to ration electricity in public spaces, Egyptian Prime Minister Mostafa Madbouly said on Thursday. Further directives include a decision to compel some government employees to work from home on some days in August.

Why has Egypt extended power cuts to 3 hours a day?

REUTERS/Amr Abdallah Dalsh/File Photo Purchase Licensing Rights CAIRO, June 24 (Reuters) - Egypt's government has extended daily power cuts to three hours, one hour longer than usual, in response to a surge in domestic electricity consumption because of a heat wave, a cabinet statement said.

Is Egypt self-sufficient in electricity?

Since June 2015, Egypt has been self-sufficient in electricity and currently has an electricity surplus of over 25 percent. The Ministry of Electricity and Renewable Energy announced on 17 July that national electricity consumption had reached record highs due to the heat wave that has affected Egypt since last week.

What is Egypt's new load shedding program?

The Egyptian government has introduced a new load-shedding program this week, which involves power cuts at specific times throughout the day. File Photo: The Zamalek neighborhood of Cairo, during a power short cut, in Egypt. AP This requires citizens to check their watches before using elevators.
