No one should be living through such pollution and harm--not in El Salvador or anywhere else. In El Salvador, companies want to mine gold. In Argentina, the fight is over lithium, a critical mineral for building the batteries needed in electric vehicles and solar panel arrays. In Panama, activists have managed to delay a copper mine in the courts.

The government, recognizing the dual benefits of reducing dependency on fossil fuels and curbing environmental pollution, has introduced policies and incentives to encourage the adoption of electric vehicles, especially as they released the approval on May 20, 2021, for using electric cars.. In addition, such initiatives would include exemptions from taxes, import duty waivers, ...
