Are FlexGen and hithium supplying a battery energy storage system?

Battery storage system integrator FlexGen and battery manufacturer Hithium could be supplying each other with complementary technologies for large-scale battery energy storage system (BESS) projects. The pair yesterday (21 November) announced the signing of a cooperation agreement in which they set purchasing targets over the next three years.

How many GWh has hithium shipped?

Hithium has shipped 30+GWh of BESS products (cells, systems and others) to date. HiTHIUM, a leading global provider of integrated energy storage products and solutions, launched the HiTHIUM Block 6.25MWh Energy Storage System (6.25MWh BESS) in Anaheim, California, debut at RE+2024, with global deliveries set to commence in Q2 2025.

What is a hithium energy storage container?

Hithium is releasing a 5-MWh energy storage container product using a standard 20-ft container structure. This second generation ESS for Hithium comes pre-installed and ready to connect. Outfitted with 48 battery modules (each 104.5-kWh lithium iron-phosphate units), the system is designed to meet the needs of large utility-scale systems.

Is hithium a Bess supplier?

To date, Hithium has shipped 40+GWh of BESS products (cells, systems and others), ranking as the Tier 1 BESS supplier and the top 5 global market share. EVLO Energy Storage Inc. (EVLO) is a fully integrated battery energy storage systems and solutions provider and subsidiary of Hydro-Québec.

Will hithium be able to supply 15gwh EMS?

We're getting close into systematising our EMS into their solutions for 15GWh on a global basis," Brandt said. Hithium was only founded in 2019, but has already supplied around 11GWh of battery products worldwide.

Where is hithium battery made?

Chongqing, China, is the site of a HiTHIUM battery production plant. The plant is currently being expanded to reach 25 GWh capacity by end of 2023 and 50 GWh by end of 2024. In the global research and technology hub of Shenzhen, China, HiTHIUM has its independent research institute, the Shenzhen Control Technology Institute.

The Battery Energy Storage System (BESS) is a modular design comprised of eight (8) two and a half megawatt (2.5 MW) cores, each with 30 or more nodes. There are a total of 244 nodes. A node is a rack of battery trays and invertors.
