The Turks and Caicos Islands are located in the tropical Atlantic, and as such are at risk of being hit by a hurricane or tropical cyclone. In the Atlantic, these storms largely form between June and November, and this period is commonly known as the hurricane season throughout the Caribbean and Bahamas.. There have been very few actual hurricane strikes to the country in recent ...

Once the obscure lair of pirates, the Turks and Caicos islands, hiding southeast of the Bahamas, elude the radar of most travelers and therein lies their biggest appeal. They are places to go for discreet hideaways, and their beaches with talcum-powder-like sand are arguably some of the most beautiful of the planet. ... solar panels provide ...

Green Revolution was formed by Paul Chaplin and Jim Dunlop in 2011, they are based in the Turks and Caicos Islands. Since their formation the company has completed many projects both residential and commercial in scale, throughout the region. These projects are saving residents of the Caribbean hundreds of thousands of dollars each year.
