IP Enclosures is a leading Australian electrical enclosure brand. We supply electrical enclosures and electrical cabinets. We also supply 19" rack cabinets, field cabinets and can supply custom electrical enclosures to suit project requirements. Our full range of electrical enclosures can be provided in powder coated galvanised steel, marine grade aluminium and stainless steel.

Electrical enclosures protect electrical components from indoor or outdoor environmental disruption. Indoor enclosures house electrical devices, junctions, and switches, shielding them from dust, dirt, and water. Weather-resistant enclosures protect electrical components from outdoor elements like rain and sleet or indoor areas that may be exposed to water.

Distribution switch cabinet: the switch cabinet is installed against the wall and is an indoor closed distribution cabinet. The box structure is bent and welded with cold-rolled steel plate or assembled with bolts.

IP66 Electrical Enclosures. The S1 range of electrical enclosures are rated for protection up to IP66. This range is wall-mounted, powder-coated galvanised steel, single door construction suitable for heavy duty applications. Features & Specifications. Protection: Complies with IP66 IK10, NEMA 4 (Independent accredited test laboratory).

Home What is a Switch Enclosure Box A switch enclosure box is a cabinet used to encase the main power on/off mechanism in an electrical, mechanical, or technological system. Switch enclosure box designs vary based on the industry or application they are being used for. However, the overall design concept is similar. Contact to Get
