What is Ellevio energy solutions?

Ellevio aims to be a driving force in electrification and help our customers in their sustainability transition. By introducing Ellevio Energy Solutions, we are expanding our business to meet our customers' needs. With Ellevio Energy Solutions, we offer comprehensive support to companies in their transition to electrified, fossil-free operations.

Does Ellevio own electricity?

Ellevio owns and operates local as well as regional electricity networks. In 2023, the company had 83,600 kilometers of power lines and cables, through which it distributed 24.2 TWh of electricity.

Is Ellevio a member of Elektrifieringspakten i Stockholm?

Ellevio is also a member of the organization Elektrifieringspakten i Stockholm (the Stockholm electrification pact), which it founded in 2021, along with the municipality of Stockholm, Scania AB and Volkswagen.

Will Ellevio supply a new 10MW system in Grums?

The new projects add to an existing 10MW system in Grums that Ellevio ordered from Netherlands-based system integrator Alfen in May last year, and Ellevio indicated the firm would be the supplier for the new projects too. The Grums unit will come online this year.

Will Mariestad become Ellevio's largest electricity customer in a single location?

The Mariestad factory is expected to become Ellevio's largest electricity customer in a single location, and the projected power demand of 400 MW in 2030 equals the amount that, as of 2024, is used by the entire Skaraborg region.
