

Who is endoks?

Today Endoks is an international brandhaving achieved its goal of becoming a competitive, reliable, and leading provider of high-quality solutions, a technology developer, and a company blazing the trails in power quality, energy digitalization, and energy efficiency, renewable energy.

What challenges do solar and wind systems face in Antarctica?

The extreme weather conditions and complex logistics of Antarctica put both solar and wind systems under huge stress, which generates operational, technological and budgetary challenges that are also explored in this work. Percentage of total energy consumption covered by renewable energy sources in Antarctic facilities.

What is a hybrid energy system in Antarctica?

Many national Antarctic programmes (NAPs) have adopted hybrid systems combining fossil fuels and renewable energy sources, with a preference for solar or wind depending on the specific location of the research station and previous experiences with certain technologies.

Does Gregor Mendel Antarctic Station use solar energy?

Solar energy utilization in overall energy budget of the Johann Gregor Mendel Antarctic station during austral summer season. Czech Polar Reports, 5, 10.5817/cpr2015-1-1. CrossRef Google Scholar

Are Antarctica's research stations using wind to generate electricity?

Wind-energy use is becoming increasingly prevalent at Antarctica's research stations. The present study identified more than ten research stations that have been using wind to generate electricity. The installed wind capacity, as identified by the study, is nearly 1500 kW of installed capacity.

Are there alternative energy sources in Antarctica?

Interest in alternative energy sources in Antarctica has increased since the beginning of the 1990s [1, 6]. In 1991, a wind turbine was installed at the German Neumayer Station. One year later, in 1992, NASA and the US Antarctic Program tested a photovoltaic (PV) installation for a field camp.

The present study maps the current use of renewable energy at research stations in Antarctica, providing an overview of the renewable-energy sources that are already in use or have been tested in the region.

By collecting the latest data available on renewable energy deployment in Antarctic stations, this article provides a snapshot of the progress towards fossil fuel-free facilities in the Antarctic, complementing the data published in the Council of Managers of National Antarctic Programs (COMNAP) Antarctic Station Catalogue (COMNAP 2017). In ...

The Princess Elisabeth Antarctica Research Station has a smart microgrid designed by research centre and

technical service provider Laborelec, and an automated energy management system designed...

PDF | This paper tracks the progress of renewable energy deployment at Antarctic facilities, introducing an interactive database and map specifically... | Find, read and cite all the research...

Endoks, which has been supplying innovative solutions for power quality market since 2008 with his experienced team and advanced infrastructure, serves as your solution partner with his eco- friendly and innovative products and systems for improving the quality and efficiency of electrical energy in all life-cycles from generation to delivery.

????????????????,??? ????? (?? : Sempra Energy) ???? ????????? (?? : Southern California Gas Company) ? 2016?1?6?, ?? ??·?? ?? ???? ? [3] ?

Today Endoks is an international brand having achieved its goal of becoming a competitive, reliable, and leading provider of high-quality solutions, a technology developer, and a company blazing the trails in power quality, energy digitalization, and energy efficiency, renewable energy.

technologies and approaches to enhance energy efficiency and embrace renewable energy in Antarctic operations. Advanced energy management controls, robust energy efficiency measures, encouragement of behavioral change, low energy instrumentation, improved insulation, innovative snow removal techniques

By collecting the latest data available on renewable energy deployment in Antarctic stations, this article provides a snapshot of the progress towards fossil fuel-free facilities in the Antarctic, ...
