Which endoscope drying & storage cabinet is right for You?

It's therefore no wonder our MEDIVATORSTM Endoscope Drying & Storage Cabinet range has become the cabinet of choice, renowned for its reliability and unrivalled performance. In fact, the MEDIVATORS Endoscope Drying Cabinet is the only cabinet in the world fully compliant with EN-16442.

How does a HEPA filtered endoscope dry & storage cabinet work?

Forcing HEPA-filtered or instrument air through endoscope channels facilitates drying, can evacuate and/or accelerate the evaporation of residual alcohol (if used), and reduces the likelihood of progressive endoscope contamination by waterborne pathogens. How the RELIANCE 6500 Endoscope Drying & Storage Cabinet Works

How many Endoscopes can be stored?

It accommodates 12 or 20 endoscopes, with expansion models enabling storage of up to 40 endoscopes. In addition to colonoscopes, specialty endoscope hangers facilitate placing and removing various endoscope types while minimizing contact between stored devices.

What is the reliability 6500 endoscope drying and storage cabinet?

The RELIANCE 6500 Endoscope Drying and Storage Cabinet is designed to help you manage access to your endoscope inventory, track key parameters, and easily access vertically hanging endoscopes, all in an organized and controlled drying environment.

Does the endoscope cabinet have a true HEPA filter?

The endoscope cabinet is equipped with a TruHEPA filter, which creates continuous positive air pressure inside. It's available in two sizes with the capacity to store up to 18 endoscopes and includes a hinged glass door with options for key or keyless locking for added security.

Our selection of drying cabinet flexible solutions allows the drying and storage of your flexible endoscopes, protecting reprocessed endoscopes from the risk of contamination by maintaining their microbiological integrity up to 720 hours.
