When will EnerDel build iego 800V battery packs?

EnerDel's engineering team designed and procured the components to build the first iEGO 800V battery packs, leveraging NMC (Nickel Manganese Cobalt) VDA modules as the building block. The build is scheduled mid-February, 2023 with testing and validation to begin immediately after at EnerDel's Headquarters in Anderson, IN.

How does the EnerDel 800V battery pack work?

The two-layer 800V battery pack integrates the base and the cooling plate in a single structure, maximizing volumetric density. After testing, EnerDel Engineering will develop a production intent design and manufacturing plan based on lessons learned. The next phase of the validation plan will focus on regulatory and customer requirements.

Where is EnerDel based?

Founded in 2004, EnerDel is headquartered in Anderson, IN. EnerDel was the first in the U.S. for commercial-scale production of large-format, prismatic, lithium-ion battery packs.

Who makes EnerDel batteries?

EnerDel, a subsidiary of Ener1 Inc., develops and manufactures compact, high performance lithium-ion batteries to power the next generation of hybrid, plug-in hybrid and pure electric vehicles.

What will EnerDel engineering do after testing iego battery packs?

After testing, EnerDel Engineering will develop a production intent design and manufacturing plan based on lessons learned. The next phase of the validation plan will focus on regulatory and customer requirements. Mass production of iEGO battery packs for customers is slated to commence mid-2024.

What is EnerDel iego?

And EnerDel's next generation of pack, the iEGO brand pack is the answer for flexible configurations and state of the art battery management system controls! It has many configurations, used in applications like transportation, mining, agriculture, construction, industrial lift, micro-grid, and marine.

The nickel metal hydride battery in the Prius stores about 2.6 kilowatt hours of electricity, compared with 26 kilowatt hours in EnerDel's 600-pound battery pack. EnerDel, relying on innovative Japanese chemistry and former GM Delphi battery engineers, designed the lithium-ion battery in a quick program that has enabled the company to reach market

EnerDel, the li-ion battery subsidiary of Ener1, announce today that a "fully functional lithium-ion battery pack" is currently operational in a Th!nk City electric vehicle in Indianapolis. Ener1 ...

EnerDel was the first in the U.S. for commercial-scale production of large-format, prismatic, lithium-ion battery packs. Over the last decade, EnerDel has worked to perfect the cell modular ...

Press Release: ENERDEL PROVIDES MARKET UPDATE ON THINK GLOBAL SUPPLY AGREEMENT Indianapolis, IN (April 1, 2008) - EnerDel, the advanced automotive battery systems division of alternative energy ...

When judging a battery or cell for pure power performance, the Short Discharge Time is a useful parameter or tool to use. Here is a white paper on it and a chart with popular cells including this EnerDel product. Interesting that it fairs better than the A123 20Ah cell.

About EnerDel EnerDel Inc. is a privately held business headquartered in Indianapolis, Indiana and a leading supplier of advanced lithium-ion batteries and electric systems solutions (ESS )for heavy-duty transportation, including full battery electric vehicle (BEV) and hybrid electric vehicle (HEV), industrial, and utility applications.

WEST LAFAYETTE, Ind. - Indiana-based EnerDel Inc., a leading manufacturer of advanced lithium-ion batteries and energy storage systems, is expanding its relationship with Purdue University's ...

High-performance, lithium-ion batteries & energy storage systems for electric grid, heavy-duty transportation, task-oriented vehicles & industrial applications. EnerDel, Inc. is located in Anderson, IN and is a supplier of Lithium Batteries. [FIND A SUPPLIER](#): [GET A QUOTE](#): [INDUSTRYNET BLOG](#):

At EnerDel, we don't just sell batteries, we offer solutions. We are a company of energy storage solution experts who apply intricate knowledge of lithium-ion technology, from the chemistry and the cells to the mechanical, thermal and controls systems to ...

Enerdel Moxie+ battery module. Each module is 2.2kWh. Perfect for all of your DIY and energy storage needs. Call 800-773-6614. Today's Deals. Product was added to your cart. Hybrid & E.V. Batteries. Batteries. Toyota. Toyota Prius 2001-2003; ...

The new plant will give EnerDel the capacity to produce battery packs for approximately 600,000 hybrid electric vehicles, or 60,000 battery electric cars. It will be financed through a \$118.5 million grant awarded under the federal stimulus package under a 50:50 cost-share program, of which EnerDel plans to spend \$60 million in 2010. ...

Workhorse Selects EnerDel As Battery Supplier: Orders 5,200 Packs Prototype testing shows that a 70 kWh EnerDel pack can take a fully loaded C-Series vehicle for 125 miles (200 km) on a single charge.

The battery is in good shape and Im considering keeping it to use as a home battery, but I bet it will be the main part to sell. So I own a not driveable anymore 2011 Think City with an Enerdel battery pack.
