

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

Does French Guiana have a pluriannual energy program?

As Guadeloupe, Martinique, Reunion and Mayotte, French Guiana has its own pluriannual energy programming. With an objective of energy autonomy set on the 2030 horizon, they have to accelerate the large-scale clean energy deployment to improve energy access.

What is French Guiana doing to improve energy access?

Reflecting France's international climate (compared to 1990) in 2030. Another important planning (Programmation pluriannuelle de l'énergie, PPE) . the security of supply. French Guiana has its own pluriannual energy programming. deployment to improve energy access.

How much energy does French Guiana use?

Electricity grid in French Guiana In 2014, the external supply represented around 80% of the total primary energy consumption (235 ktep). Transport and electricity were the most intensive sectors regarding the total primary and final energy consumption (222 ktep) in 2014 .

Does French Guiana have a lack of energy?

The lack of access to energy in the inland areas is a key issue at the heart of French Guiana's pluriannual energy programming. With an electrification rate of dwellings four times lower than the regional average , the energy precariousness, if no further action is taken, should worsen.

Does French Guiana have a role in the National Energy Transition?

French Guiana as a French overseas territory can play a fundamental role in the national energy transition. Even though, it is already well positioned regarding the share of renewable energy in the final energy consumption, its dependence on fossil fuels remains a problematic.

The power plant will deliver a firm capacity of 10MW from 8AM to 8PM and 3MW between 8PM and 8AM. The plant will therefore generate non-intermittent renewable electricity in the North-West region of French Guiana, which faces ...

This paper aims to make an inventory of the energy situation in French Guiana, identify the challenges restricting the widespread use of renewable energy and propose some recommendations...

French Guiana COUNTRY INDICATORS AND SDGS TOTAL ENERGY SUPPLY (TES) Total energy

supply in 2021 Renewable energy supply in 2021 100% Oil Gas Nuclear Coal + others Renewables 93% 7%
 ... World Fr Guiana Biomass potential: net primary production Indicators of renewable resource potential Fr
 Guiana 0% 20% 40% 60% 80%

By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy. Connected to the grid through EDF's power station of Saint-Laurent-du-Maroni, CEOG will meet the current and future needs of the population in the area.

According to the French Energy Transition for Green Growth Act, the main objective is to develop renewable and clean energy in order to achieve energy self-sufficiency for the entire territory. ...

During its 25 years of operation, CEOG will create sustainable and qualified jobs in western Guyana, in addition to those created during its construction. CEOG is 60% owned by Meridiam, 30% by SARA (Rubis Group) and 10% by HDF. French manufacturers McPhy and HDF will supply electrolyzers and fuel cells respectively.

According to the French Energy Transition for Green Growth Act, the main objective is to develop renewable and clean energy in order to achieve energy self-sufficiency for the entire territory. Due to its favorable location offering a wide range of potential renewable sources, French Guiana is a good candidate for developing efficient and ...

HDF Energy (Hydrogène de France) has launched the CEOG project, which will install its Renewable solution to deliver clean, affordable and reliable power to an area of more than 10 000 households that have suffered from energy delivery problems in French Guiana.

French Guiana COUNTRY INDICATORS AND SDGS TOTAL ENERGY SUPPLY (TES) Total energy supply in 2020 Renewable energy supply in 2020 100% Oil Gas Nuclear Coal + others Renewables 91% 9%
 ... World Fr Guiana Biomass potential: net primary production Indicators of renewable resource potential Fr
 Guiana 0% 20% 40% 60% 80%

The power plant will deliver a firm capacity of 10MW from 8AM to 8PM and 3MW between 8PM and 8AM. The plant will therefore generate non-intermittent renewable electricity in the North-West region of French Guiana, which faces an important increase in electricity demand on a geographically constrained territory.
 Stage: In Construction

French Guiana: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.
