Interactive Energy; K. Kraftwerke Oberhasli; R. Repower (company) S. Societ ; Elettrica Sopracenerina This page was last edited on 18 September 2019, at 11 ...

If energy transition in Switzerland is to succeed, a pragmatic approach is necessary. Energy company Axpo has shown that wind energy and even new nuclear power plants are cheaper than photovoltaics.

By collaborating with on-the-ground crews, the robot accelerates the deployment of renewable energy, consequently reducing the time-to-power for AES customers. The AI-powered computer vision of Maximo ensures precise panel placement, crucial for enhancing installation accuracy.
