Is Energy Vault a good company?

As of September 2, 2024, Energy Vault held the highest score for Product Stewardship and Business Ethics in the industry. "We are proud to have been recognized by S&P Global for our commitment to ESG, which is woven into the fabric of everything we do at Energy Vault," said Robert Piconi, CEO and Founder, Energy Vault.

Who owns Energy Vault?

In 2020, Energy Vault was Named Technology Pioneer by World Economic Forum and completed the mechanical construction of the first of its kind, grid-scale testing tower in Castione-Arbedo, Ticino, Switzerland. In 2021, Energy Vault announced investments from Saudi Aramco Energy, and other existing investors.

Does Energy Vault have a storage tower?

Energy Vault's storage tower. Source: Energy Vault Energy Vault has raised USD 100 million (EUR 85m) in Series C funding to support deployments of its gravity-based energy storage technology, which will start in the US in the fourth quarter of 2021, the Swiss company said on Wednesday.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Where is Energy Vault located?

Energy Vault's Rudong, China facility under construction. The fabrication of an EVx facility is essentially a large-scale civilian engineering project and, other than Energy Vault's intellectual property, the vast majority of inputs required to build the facility are available from local suppliers.

In April of 2023, China Tianying (CNTY) commenced construction of Zhangye City's first Gravity Energy Storage System (GESS) project. Once completed, the 175 meter structure will be equipped with a peak power output of 17 MW and a maximum energy capacity of 68 MWh.
