

What makes Enova a pioneer in Germany?

Several projected offshore wind farms, which resulted in 1,500 MW of wind farm licences, made ENOVA a pioneer in Germany. Outstanding: RIFFGAT, a joint project with EWE, was the first commercial offshore wind farm to be completed in the North Sea. In 2014, 30 wind turbines were connected to the grid north-west of the island of Borkum.

What makes Enova a great company?

Sustainability, solidity, safety. ENOVA is all about reliability and creating value - for the environment and for our investors. In a constantly changing market, we adapt to circumstances and grow with them. Agile and confident, we're constantly opening up new areas of business and broadening the foundation of our company.

Why should you choose Enova?

With their expertise and start-up mentality, the entire ENOVA team has aspired to this for over 35 years. Through our considerable expertise and active commitment over the decades, we've developed a range of wind energy services that set standards in the industry. We have successfully planned, projected and developed numerous wind farms.

Is Enova a leader?

ENOVA has developed constantly throughout its 35-year history. It was a pioneer. Now it's a leader. When Helmuth A. Brämmmer, now Chairman of the Supervisory Board of the ENOVA Group, founded ENOVA Energiesysteme GmbH & Co. KG in Leer, East Frisia, in 1989 he demonstrated one thing above all else: vision.

Who are the top management of Enova group?

Hauke Brämmmer (Chief Executive Officer), Hendrik Böhmschen (Chief Operating Officer) and Björn Burau (Chief Financial Officer) form the top management of the ENOVA Group. Together, they are working to future-proof ENOVA, drive forward the company's strong growth and optimize the associated processes, structures and management tasks.

How will flisr affect Enova power?

Later this year, the system will also monitor the network for sudden loss of voltage and attempt to isolate the cause and reroute power to as many customers affected as possible.
