

Given the variable nature of renewable energy sources, supply and demand dynamics can shift rapidly. Trading algorithms respond to these changes promptly, facilitating well-informed and profitable decisions. Entrix executes a significant number of trades daily, approximately 200 trades per day per installed battery MW.

The technical storage or access is strictly necessary for the legitimate purpose of enabling the use of a specific service explicitly requested by the subscriber or user, or for the sole purpose of carrying out the transmission of a communication over an electronic communications network.

Award-winning innovation: Entrix won the Energy Tech Challengers Award in the category Battery Value Chain at this year's Energy Tech Summit in Warsaw. The Entrix solution unlocks the full potential of grid-scale storage assets and virtual power plants and optimizes their financial returns on a day-to-day basis. To ensure the best results when making trading decisions, we cover both energy market and asset operations on a long-term basis.

Why Work With Entrix? We are your partner for optimizing the lifetime value of your energy assets. Talk to us Short-term forecasts and a changing energy landscape. We combine expertise in short-term energy markets forecasts with a deep understanding of the changing energy landscape. Thereby, we account for changing weather conditions or ...

Enpal and Entrix have joined forces under the joint venture Flexa to introduce a next-generation Virtual Power Plant (VPP) for residential households. This pioneering initiative connects solar panels, home battery storage systems, electric vehicles, and heat pumps into an intelligent, decentralized energy network. By optimizing energy use and market participation, the VPP ...

To put it precisely, in the context of determining the minimum energy capacity aFRR: When participating in both Capacity and Energy Markets: 60 minute energy buffer needs to be reserved on both ends of the SoC spectrum. For RPU's bidding only in the Energy Market: A 15-minute energy buffer is required at both ends of the SoC spectrum.

Enpal und Entrix haben sich im Rahmen ihres Joint Ventures Flexa zusammengeschlossen, um ein Virtuelles Kraftwerk der nächsten Generation für private Haushalte einzuführen. Diese wegweisende Initiative verbindet Solaranlagen, Batteriespeicher, Elektroautos und Wärmepumpen zu einem intelligenten, dezentralen Energienetzwerk. Durch die Optimierung ...

Entrix is a Munich-based start-up, our intelligence enables the energy transition and unlocks the full value of flexible energy assets such as large batteries. And therefore, we need you: A forward-thinking and experienced Senior Tech Recruiter who will contribute to the growth of Entrix by attracting, creating an excellent candidate experience ...

Entrix's primary industry is Other Energy Services. Is Entrix a private or public company? Entrix is a Private company. What is Entrix's current revenue? The current revenue for Entrix is . Who are Entrix's investors? TotalEnergies On, Abacon Capital, AENU, Alexander Samwer, and Enpal are 5 of 7 investors who have invested in Entrix.

Die Anlagen in Schleswig-Holstein und Niedersachsen verfügen über eine gemeinsame Leistung von 106 MW und eine Gesamtkapazität von 212 MWh. Beide Projekte sollen bis Anfang 2026 in Betrieb genommen werden und werden durch Entrix, einem führenden Spezialisten für die automatisierte Optimierung von Großbatteriespeichern, vermarktet. Finanziert werden die ...

Über Entrix Entrix GmbH ist ein führender Anbieter einer KI-gestützten, vollautomatischen Optimierungs- und Handelsplattform für flexible Energieanlagen. Von netzgekoppelten Batterien bis hin zu virtuellen Kraftwerken stellt Entrix sicher, dass die Anlagen bestmöglich an Handels- und Regelenenergiemärkten eingesetzt werden.

We provide intelligent, tailored and responsible management of energy assets to optimize their value in cooperation with our partners and clients whilst building a thriving organisation that values, grows, and inspires exceptional individuals.

"We work with Entrix on the optimisation of battery storage projects. Entrix is a great partner to us due to its state-of-the-art technology as well as its professional and pragmatic team that wants to have an impact. We are glad that Entrix closely works with us in tackling the climate crisis."
