HOUSTON, March 26, 2024 - Houston-based Vaalco Energy has received final approval from the government of Equatorial Guinea for its Venus plan of development in offshore Block P, the company announced on Monday. All partners have signed the final documents and Vaalco will soon proceed with a FEED study prior to taking the FID that will lead to the execution of its ...

Equatorial Guinea is a source and destination country for women and children subjected to forced labor and sex trafficking. The majority of trafficking victims are believed to be exploited in Malabo and Bata, where burgeoning construction and economic activity funded by oil wealth has contributed to increases in the demand for cheap labor and prostitution.

Equatorial Guinea's Digital Economy Diagnostic provides a comprehensive assessment of its digital economy across the five foundational pillars of the Digital Economy for Africa (DE4A) initiative: digital infrastructure, digital public platforms, digital financial services, digital businesses, and digital skills.

ExxonMobil has signed another production sharing agreement with Equatorial Guinea, the new OPEC member. According to Reuters, the production has been signed for the Block EG-11, located offshore Equatorial Guinea. Data found on Exxon's website shows the company is already largest oil producer in the country. It operates Block B, located offshore ...

U.S. citizens can travel to Equatorial Guinea without a visa, and the opportunity to see exotic wildlife and historic architecture is sure to attract many, so long as the region remains safe. Toward that end, the embassy is working to help address ...

Safe operations is a core pillar of our sustainability framework and provides a commitment to safe working, safe processes and effective emergency response. ... Tullow Oil plc (Tullow) is pleased to announce that the sale of its assets in Equatorial Guinea to Panoro Energy ASA (Panoro) has now completed. Earlier today, Tullow received a payment ...

Equatorial Guinea's hydrocarbon riches dwarf all other economic activity; the country's oil reserves are located mainly in the Gulf of Guinea. U.S. oil companies are one of Equatorial Guinea's largest investors, and

they have a ...

Other pages in section Block G (Ceiba Field and Okume Complex) The Ceiba Field and Okume Complex assets comprise six oil fields offshore Equatorial Guinea. The Ceiba Field is located in 600-800 m of water depth on the slope of the southern Rio Muni Basin approximately 35 km offshore. Oil production commenced in November 2000 [...]

Equatorial Guinea had a population of 790,000 people in 2013 (IEA, 2016). Total electricity production in 2015 was 82 ktoe with 57.3 per cent generated from hydro and 41.4 per cent generated from fossil fuels (IEA, 2016). Electricity consumption in 2015 was 36 ktoe. Table 2 shows the main energy statistics.

In 2017, Equatorial Guinea attracted significant investments from a new U.S. oil exploration company. We will continue to encourage U.S. investment, including in areas outside the energy sector. As a middle-income country, Equatorial Guinea is not eligible for development assistance from international
