With a powerful 1500A peak current and smart tire inflator, it reliably starts 12V vehicles and inflates tires to 150 PSI in 3 minutes. Equipped with a built-in LED light and 12000mAh power bank, it ensures safety and convenience

Battery Life Estimates (Figure 8): Figure 8; If the "Full Charge Capacity" (Figure 7) is less than 25% of the Designed Capacity and the battery is more than a year old, this is normal. If the battery is less than a year old, the battery may need to be replaced. The System BIOS can be checked as well for the battery health. More Information:

By Antonio Oburu Ondo, Minister of Hydrocarbons and Mineral Development, Equatorial Guinea ExxonMobil has concluded its operations in Equatorial Guinea after almost three decades, fulfilling its intention, stated in 2022, to leave when its licenses expired. The departure of the American giant marks the close of a significant chapter in ourCountry's ...
